

The Chemistry Club Corner

They agreed to meet at a cool retreat at the point of interrogation.—Oliver Herford.

If You Have Written a Chemical Play, Hurry It in to Us!

If You Have a Chemistry Club, Hasten to Write Us about Its Activities!

If You Live in a Town with a Chemical Name, Send Us a Letter about It!

A LETTER FROM A MEMBER OF THE S.O.S.

What is the S. O. S.?

At the Hallahan Catholic High School of Philadelphia, it is the Senior Order of Sulfates. Here is a letter from one of the members of that organization:

EDITOR OF THE CHEMISTRY LEAFLET:

I am writing to tell you of our Chemistry Club. Our school is the Hallahan Catholic High School, and only Seniors take chemistry. Our Chemistry Club is therefore called S.O.S., or Senior Order of Sulfates.

We meet every Friday. The President presides over the meetings, and we also have a Vice-President, a Secretary, and a Treasurer. At every meeting, three interesting discourses are given by appointed girls. The subjects chosen, of course, relate only to Chemistry.

Then we have the Question Box. Each member writes a question on a piece of paper. These are collected and presented to the President, who reads them to the members. If the members are unable to answer them, they are kept until the next meeting, and answered then. Once we solved a cross-word puzzle during the meeting. This is about all that we have done.

We would be grateful for any suggestions. Thanking you, I am
Sincerely,

THERESA RYAN,
1239 North 19th Street, Philadelphia
