## JOURNAL OF CHEMICAL EDUCATION——

"I am finding this magazine invaluable in my teaching work."

"The Journal is surely the most interesting publication of its kind that I have ever run across; the only magazine which I keep with my books for ready reference."

"The Journal of Chemical Education has grown to be an indispensable help to anyone interested in chemistry from an educational point of view or any other."

"I have enjoyed your worthy publication immensely."

"Allow me to express my appreciation of the continually growing value of the Chemical Education magazine."
